CPM Consortium,

As President of the Suncoast Chapter of the CPM Alumni Association, I would like to express my wholehearted support of the recent application submitted for consideration, which will establish the Florida Society of Certified Public Managers (FSCPM) association. Additionally, I support the effort of the Florida Society of Certified Public Managers, Inc. (FSCPM) to be recognized by the Consortium for utilization of their registered trademark Certified Public Manager.

I believe that the mission and goals of the Florida Society of Certified Public Managers (FSCPM) association are closely aligned with those of the Florida Center for Public Management. One of the main reasons that the FSCPM has been established is to support the Florida Center for Public Management program and its graduates. I look forward to working in the newly established FSCPM organization to support CPM students and graduates.

I respectfully ask for your favorable consideration and endorsement of our application.

Sincerely,

Greta Finney
